Gentlemen:

A technical representative of this Agency inspected your refuse disposal facility located approximately 1 1/2 miles east of State Street on Saulk Trail Road on April 8, 1971. Mr. Tony LoBue was contacted at the time of the inspection.

The inspection disclosed the following conditions which were not in complete compliance with the Rules and Regulations for Refuse Disposal Sites and Facilities:

1. The site is not posted in accordance with Rule 4.03(a). The days and hours of operation shall be clearly posted at the entrance to the site.
2. A shelter should be provided for operating personnel in accordance with Rule 4.03(c).
3. Refuse was not being covered in accordance with Rule 5.07 (a). All refuse which has received daily cover, but which will not receive additional refuse or final cover within sixty (60) days, must be provided with an additional foot of compacted cover material. This is necessary for fire and rodent control.
